About Me

I am 29 years young. Grown up in the south of Munich, I have always been heavily influenced by the Alps. Eight years ago, I picked up the first camera to take my newly found hobby to the mountains and take photos of my friends. It was not long before capturing special moments in the Alps became a fundamental passion for me.

In the meanwhile, I moved to Innsbruck, Austria, which allows me to spend my time on the mountain in addition to do photography fulltime. For about more than 6 years now I work worldwide and successful as a freelance photographer in the sectors of Action Sport, Event, Outdoor and Commercial.

Warm Regards

Bowmore Whiskey at BMW Open

Descriptions :

Bowmore is Islay's oldest distillery, and home to the world's oldest whisky maturation warehouse, the No. 1 Vaults. It's in this legendary warehouse that Bowmore whisky has been meticulously matured by our master distillers for nearly 240 years.

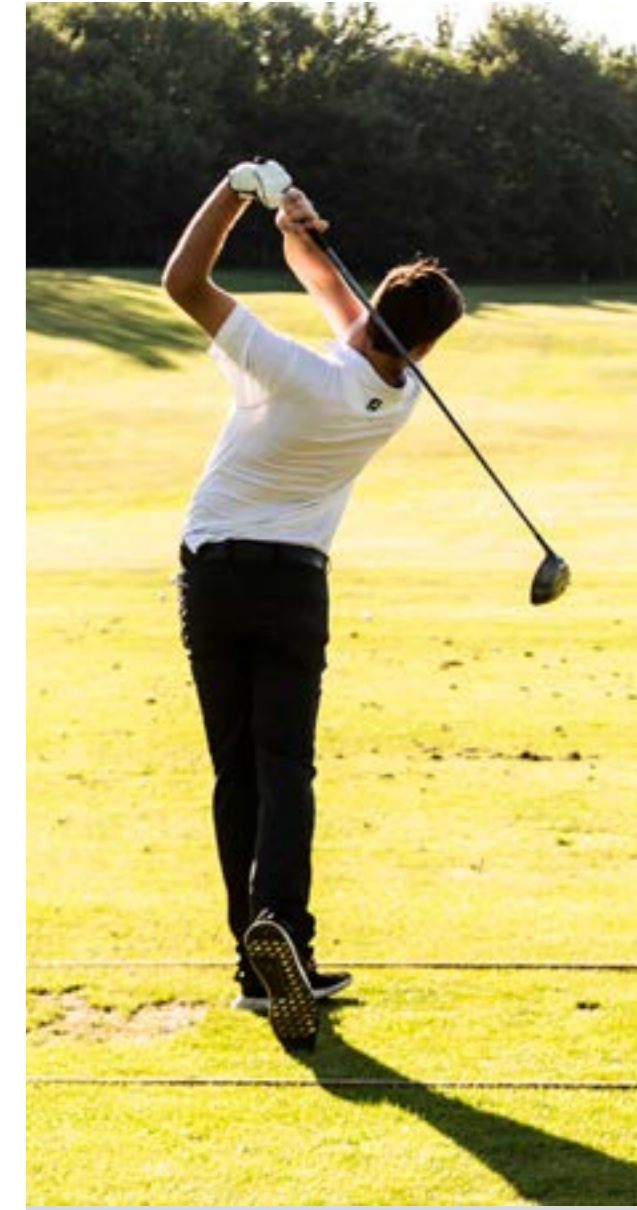

The first recorded mention of Bowmore Distillery dates from 1779, but speak kindly to a few of the older islanders and they'll maybe whisper a rumour or two that distilling started here some time before that.

Snowmads Travel Photography

Descriptions :

"I always knew that I wanted to build my own home on wheels but I had to wait for the perfect moment. When we decided to go on the SNOWMADS trip I knew the time has come to fulfill this dream and make things happen. My plan was to build the perfect ski expedition car which could fit several athletes plus media crew and which could handle steep and rough roads. After month of intense research we found our project: the Mercedes 1113 LAF 1985, which is used by German Fire Brigades." - Fabian Lentsch

Patagonia Worn Wear Tour

Descriptions :

Repair is a radical act - One of the most responsible things we can do as a company is to make high-quality stuff that lasts for years and can be repaired, so you don't have to buy more of it.

The Worn Wear program celebrates the stories we wear, keeps your gear in action longer and provides an easy way to recycle Patagonia garments when they're beyond repair.
